

MUHAMMAD AHMED SHAHZAD

Data Science Graduate

Ahmed Pur East, Punjab, Pakistan | +92 327 6380090 | muhammadahmedshahzad05@gmail.com | [LinkedIn](#) | [Portfolio](#) | [GitHub](#)

PROFESSIONAL SUMMARY

Recent BS Data Science graduate with hands-on academic project experience in building a data-driven web application as part of a Final Year Project. Motivated, quick to learn, and eager to build practical skills in a professional, industry environment. Seeking an internship opportunity to gain hands-on experience.

EDUCATION

BS Data Science

2022 – 2026

Muhammad Nawaz Sharif University of Agriculture, Multan (MNS-UAM)

PROJECTS

Campus Complaint and Feedback Management System

Final Year Project — a web-based platform for submitting, tracking, and managing campus complaints and feedback.

- Designed and developed the system using PHP and MySQL, covering complaint submission, status tracking, and admin management modules.
- Built database schema and backend logic to handle user roles, complaint categorization, and reporting.
- Collaborated with a team of three under faculty supervision, including planning, development, and documentation.

NLP Sentiment Analysis

Sentiment analysis on 50,000 IMDB movie reviews — Python, NLTK, TF-IDF.

- Cleaned and preprocessed a large text dataset, removing HTML noise to prepare it for analysis.
- Analyzed review sentiment patterns using a TF-IDF-based model, reaching 88.8% classification accuracy.
- Reviewed misclassified cases to identify patterns and report on where the analysis fell short.

Customer Churn Prediction

Churn analysis on telecom customer data — Python, Scikit-learn, XGBoost.

- Cleaned and explored telecom customer data to identify key factors driving customer churn.
- Compared multiple analytical models to determine which customer segments were most likely to churn.
- Summarized findings into actionable insights on customer retention risk.

EXPERIENCE

E-Commerce Store Owner — Zaryan Collections

Jun 2025 – Sep 2025

- Managed a Daraz online store, including product listings and inventory.
- Tracked sales performance and analyzed seller dashboard data to inform stocking decisions.
- Handled customer inquiries and maintained accurate product information.

SKILLS

Technical: Data Science Fundamentals, Basic/Academic Knowledge of Python, Academic Knowledge of SQL, Academic Knowledge of Power BI

Software: MS Office, Basic Computer Skills

Tools: VS Code, Jupyter Notebook, GitHub

Other: Internet Research, Communication, Problem Solving

CERTIFICATIONS

Data Analytics Essentials — Cisco Networking Academy

Aug 2026
