

MUHAMMAD AHMED SHAHZAD

Data Science Graduate

Ahmed Pur East, Punjab, Pakistan | +92 327 6380090 | muhammadahmedshahzad05@gmail.com | [LinkedIn](#) | [Portfolio](#) | [GitHub](#)

PROFESSIONAL SUMMARY

Recent BS Data Science graduate with hands-on academic project experience in building a data-driven web application as part of a Final Year Project. Motivated, quick to learn, and eager to build practical skills in a professional, industry environment. Seeking an internship opportunity to gain hands-on experience.

EDUCATION

BS Data Science

2022 – 2026

Muhammad Nawaz Sharif University of Agriculture, Multan (MNS-UAM)

PROJECTS

Campus Complaint and Feedback Management System

Final Year Project — a web-based platform for submitting, tracking, and managing campus complaints and feedback.

- Designed and developed the system using PHP and MySQL, covering complaint submission, status tracking, and admin management modules.
- Built database schema and backend logic to handle user roles, complaint categorization, and reporting.
- Collaborated with a team of three under faculty supervision, including planning, development, and documentation.

NLP Sentiment Analysis

Text classification model trained on 50,000 IMDB movie reviews — Python, NLTK, TF-IDF.

- Cleaned raw HTML-laced review text and built a TF-IDF + Logistic Regression pipeline achieving 88.8% accuracy.
- Performed error analysis on misclassified reviews to identify and address pipeline weaknesses.
- Documented the full workflow on GitHub, from raw text to final model evaluation.

Customer Churn Prediction

End-to-end classification pipeline on telecom customer data — Python, Scikit-learn, XGBoost.

- Cleaned and engineered features from raw telecom customer data for model readiness.
- Built and compared Logistic Regression, Random Forest, and XGBoost models to flag customers likely to churn.
- Evaluated model performance and selected the best-performing approach for deployment readiness.

EXPERIENCE

E-Commerce Store Owner — Zaryan Collections

Jun 2025 – Sep 2025

- Managed a Daraz online store, including product listings and inventory.
- Tracked sales performance and analyzed seller dashboard data to inform stocking decisions.
- Handled customer inquiries and maintained accurate product information.

SKILLS

Technical: Data Science Fundamentals, Basic/Academic Knowledge of Python, Academic Knowledge of SQL, Basic Knowledge of Power BI

Software: MS Office, Basic Computer Skills

Other: Internet Research, Communication, Problem Solving

CERTIFICATIONS

Data Analytics Essentials — Cisco Networking Academy

Aug 2026
